FAMOUS JEFFERSON

Incident Response Analyst | SIEM & EDR | Phishing & BEC Investigation | M.S. Cybersecurity | SSCP, CySA+, Security+, CMMC CCP
Chicago, IL | 773-620-0098 | famous.jefferson@yahoo.com | LinkedIn: Famous Jefferson | LinkedIn | Portfolio: https://famousjeff75.github.io/famous-jefferson/

CAREER AT A GLANCE

- **Incident Response:** Incident Response Analyst II with 6 years of combined IT and cybersecurity experience, detecting, investigating, and containing threats across SIEM, EDR, email, and endpoint data in 24/7 security operations.
- **SIEM & EDR Monitoring:** Triage and severity-rank alerts in Splunk ES, Azure Sentinel, and CrowdStrike, searching and correlating 40+ TB of total searchable data and logs to scope and contain threats.
- **Digital Forensics & MITRE ATT&CK:** Malware, network traffic, and endpoint forensic analysis, with observed attacker behavior mapped to ATT&CK tactics and techniques for classification and reporting.
- **Phishing & BEC Investigation:** Analyze email headers, sender domains, URLs, attachments, and account activity; support message containment and recommend account-protection measures. Proofpoint Certified Email Identity Protection Specialist.
- **Vulnerability Management:** Nessus and Vicarius vRx scanning with CVSS-based prioritization; built a Vulnerability Disclosure Program blueprint using RFC 9116 and disclose.io.
- **Compliance & Risk:** NIST, ISO 27001, CMMC, and SPRS alignment; author of System Security Plans, incident reports, incident timelines, and SOPs.
- **Identity & Security Awareness:** Okta SSO, Azure AD, and Active Directory administration; KnowBe4 phishing simulations and training campaigns.
- **Credentials:** M.S. in Cybersecurity & Information Assurance; SSCP, CySA+, SecurityX, PenTest+, Security+, CMMC CCP; Tier 3 background investigation favorably adjudicated (Cyber AB / DCSA).

PROFESSIONAL EXPERIENCE

KellyMitchell
Incident Response Analyst II (Contract) | August 2026 – November 2026

- **Overview:** Hired to monitor, investigate, and respond to security alerts and incidents in 24/7 security operations on rotating shifts, working SIEM and EDR data across 40+ TB of total searchable data and logs.
- **Impact:** Contained 30 confirmed incidents and cut mean time to respond by 30 – 40% by searching and correlating 40+ TB of total searchable SIEM, EDR, and network log data; avoided an estimated 1.5 million - $5 million in potential incident losses.
- **SIEM & EDR Monitoring:** Monitor and triage alerts, assess severity, and initiate response actions to contain and mitigate threats.
- **Digital Forensics & MITRE ATT&CK:** Conduct malware, network traffic, and endpoint forensic analysis to support investigations; map observed attacker behavior to ATT&CK tactics and techniques.
- **Incident Response:** Lead or support containment, eradication, and recovery with internal teams; maintain incident records, timelines, indicators of compromise, response actions, lessons learned, and prevention recommendations.
- **Phishing & BEC Investigation:** Analyze headers, sender domains, URLs, attachments, and related account activity; escalate suspected email compromises, support message containment, and recommend account-protection measures.
- **Frameworks & Threat Intelligence:** Apply NIST and ISO 27001, prepare incident reports, recommend security-control improvements, and share threat intelligence on emerging threats.

CompliancyIT
Jr. Compliance Consultant | March 2026 – August 2026

- **Overview:** Supported client compliance programs by maintaining compliance roadmaps, System Security Plans, and GRC documentation.
- **Impact:** Maintained compliance roadmaps and SSPs for 9 clients, with 80% of governance documents approved on first review and 98% of remediation items closed.

- **Compliance Road mapping**: Updated each client's roadmap to ensure accuracy and alignment with regulatory requirements.
- **System Security Plans**: Reviewed, built, and proofed SSPs for compliance accuracy.
- **GRC Tooling**: Prepared and uploaded compliance documentation to Governance, Risk, and Compliance tools, linking documents to relevant controls.
- **Remediation Coordination:** Collaborated with IT teams on remediation projects to address compliance issues.
- **Stakeholder Communication:** Facilitated meetings, distributed debriefs with clear action items, followed up with clients on outstanding items, and managed the governance sign-off process.

Netrix Global LLC at Thompson Coburn LLP
IT Technician II (Contract) | November 2025 – April 2026

- **Overview:** Provided Tier 1 and Tier 2 support for attorneys, staff, and administrators at a law firm, keeping legal operations running smoothly.
- **Impact:** Resolved 60 -80 tickets per month with 96% first-contact resolution.
- **Technical Support:** Resolved hardware, software, and network issues across Windows, macOS, legal management software, eDiscovery tools, and peripherals, including remote support for urgent issues.
- **Legal Technology:** Installed, configured, and maintained law-specific software, document management systems, and hardware to support case workflows; collaborated with internal IT and vendors.
- **Patching & Compliance:** Performed system updates, security patches, and upgrades; ensured IT infrastructure met organizational policy and data protection requirements (GDPR, HIPAA).
- **Documentation & Training:** Developed technical documentation, user manuals, and troubleshooting procedures; trained users on new software, systems, and hardware.

MxD USA
Cybersecurity Analyst (previously IT Specialist II) | August 2022 – October 2025

- **Overview:** Hired as IT Specialist I and advanced to IT Specialist II and then Cybersecurity Analyst, running security operations across network, endpoint, email, identity, vulnerability, backup, and compliance programs in an environment governed by NIST 800-53 and CMMC requirements.
- **Impact:** Remediated 90 - 95% of critical and high vulnerabilities across 90 endpoints, cut onboarding time by 20% with Okta SSO and account provisioning, and advanced CMMC pre-assessment readiness, protecting contract eligibility valued at $1.2 million.
- **Network & Endpoint Security:** Configured Palo Alto firewalls, monitored network threats, and ensured policy compliance; administered endpoints with Datto RMM, BigFix, Windows Defender, and SentinelOne for automated threat detection and response.
- **Email Security & Awareness:** Managed Proofpoint Email Security, trained staff, and improved phishing detection; ran KnowBe4 baseline phishing simulations and organization-wide training campaigns.
- **Vulnerability Management:** Ran Nessus and Vicarius vRx scans to identify, prioritize, and remediate risks; built a compliant Vulnerability Disclosure Program blueprint using RFC 9116 (security.txt) and disclose.io, with CVSS triage workflows and legal Safe Harbor protections.
- **Identity & Access Management**: Administered Office 365, Azure AD, and Active Directory; implemented and managed Okta SSO; provisioned accounts, hardware, and software for onboarding and offboarding.
- **Log Analysis & Compliance:** Analyzed logs with Azure Log Analytics and reported anomalies to leadership; maintained System Security Plans, led SPRS audits, and supported CMMC pre-assessment; oversaw off-site backups with Druva and Nutanix.

Impact Networking, LLC
Service Desk Analyst | February 2022 – August 2022

- **Overview:** Provided remote service desk support, managing user permissions and service tickets.
- **Remote Support**: Resolved printer, email, and permission issues using SplashtopSOS and Quick Assist, reducing user downtime.
- **Access Management**: Managed Azure AD permissions and supported tickets in Base99 and e-automation.
- **Incident Prioritization:** Prioritized critical incidents; ensured SLA adherence, and escalated unresolved issues to senior IT staff while keeping end users informed.

Interfirst Mortgage
IT Specialist | July 2021 – September 2021

- **Overview:** Deployed and supported systems and user access for remote employee onboarding.
- **Endpoint Deployment**: Imaged and deployed software with Intune; coordinated hardware shipments and software installations.
- **Access Management:** Managed user permissions in Azure AD and Google Suite, IT hardware and software.
- **Technical Support:** Resolved end-user issues in Fresh Service, ran onboarding sessions for new hires, and fixed configuration issues across cloud and on-premises systems.

Empire Today
User Support Technician | December 2020 – August 2021

- **Overview:** Supported employee devices, accounts, and IT assets.
- **Endpoint Management:** Imaged, configured, and maintained laptops and tablets for operational readiness.
- **Access Control:** Created, updated, and managed Active Directory accounts.
- **Asset Management**: Maintained IT inventory to track hardware and software license compliance.
- **Remote Support:** Troubleshot remotely with LogMeIn Rescue and TeamViewer.

CERTIFICATIONS

- Proofpoint Certified Email Identity Protection Specialist – 2026
- ISC2 System Security Certified Practitioner (SSCP) – 2026
- CompTIA SecurityX (formerly CASP+) – 2025
- CompTIA CySA+ – 2025
- CompTIA PenTest+ – 2024
- CompTIA Security+ – 2024
- ISACA CMMC Certified Professional (CCP) – 2024
- ISC2 Certified in Cybersecurity (CC) – 2024
- CompTIA Network+ – 2023
- CompTIA A+ – 2023
- CompTIA ITF+ – 2022
- Microsoft MTA: Windows Server Administration – 2022
- Microsoft Azure Fundamentals (AZ-900) – 2022
- Pearson VUE Proctor – 2020
- Google IT Support – 2020
- Tier 3 background investigation, favorably adjudicated (Cyber AB / DCSA)

TOOLS & TECHNOLOGIES

- Firewalls: Palo Alto, Fortinet
- Endpoint Protection & Monitoring: CrowdStrike, SentinelOne, Windows Defender, Datto RMM, Cyflare
- SIEM & SOAR: Splunk ES, Splunk SOAR, Azure Sentinel
- Threat Intelligence & Analysis: Splunk Attack Analyzer, DomainTools, ANY.RUN, VirusTotal (GTI)
- Cloud & Identity Security: Wiz, Semperis, Okta
- Network & Web Security: Aruba Central, Aruba Airwave, Zscaler, Zimperium, Akamai
- Email Security: Proofpoint (email threat investigation and phishing analysis)
- Security Awareness: KnowBe4, GoPhish
- Vulnerability & Disclosure: Nessus, Vicarius vRx, HackerOne, Bugcrowd University, disclose.io
- Policy & Compliance (GRC): IntelliGRC, FutureFeed, Hyperproof, DocTract
- Backup & Recovery: Druva, Nutanix

EXPERTISE AND INDUSTRY KNOWLEDGE

Incident Response | SIEM | EDR | Threat Detection | Alert Triage | Digital Forensics | Malware Analysis | Network Traffic Analysis | Log Analysis | MITRE ATT&CK | Phishing Investigation | Business Email Compromise (BEC) | Email Header Analysis | Email Threat Analysis | Threat Intelligence | Security Operations | Vulnerability Assessment | Vulnerability Management | CVSS | Bug Bounty & Vulnerability Disclosure Programs (VDP) | RFC 9116 | Risk Assessment & Risk Mitigation | Network Security | Endpoint Security | Cloud Security | Identity & Access Management (IAM) | Single Sign-On (SSO) | Security Awareness Training | NIST | ISO 27001 | CMMC | SPRS | System Security Plans (SSP) | Security Compliance | Regulatory Compliance | Security Audits | Policy Implementation | Disaster Recovery | IT Infrastructure Management | Project & Operations Management

EDUCATION

Western Governors University – Master of Science in Cybersecurity & Information Assurance, April 2025

University of Phoenix – Bachelor of Science in Business Management, June 2017
